Greenko Group *Hyderabad, IN*

- Consistently met all the deadlines
- Clearly communicated problems and progress to the upper management via engaging and artful presentations
- Handled, prioritized and problem-solved multiple tasks connected to the projects

PROJECTS

URL Shortener. Built a URL shortening by using Bootstrap, ReactJS, NodeJS, Tailwind and MongoDB. A user can register, login and shorten a URL. Implemented a dashboard where user can get details about how many URLs are shortened in the day and in current month along with list of all shortened URLs with number of times clicked

Writzer. Built a Content Management System by using, Ant Design, ReactJs, NodeJs and MongoDB. Implemented light dark modes. A user can register, manage and post content. Implemented separate dashboards for Admin, Author and Subscriber.

BizBook. Built a E-commerce book store application using MaterialUI, ReactJs, NodeJs and MongoDB. Implemented Admin and User dashboards separately. An Admin can add manage products, categories and orders. A user can search and shop for books and pay through payment gateway, which is integrated with Paypal Node API

AWS Polymer Clone. Built AWS Polymer Clone web app using Tailwind CSS, Redux toolkit, ReactJS, NodeJS, MongoDB.

LEADERSHIP

- By effectively motivating and leading the team members, successfully completed six projects within given constraints.
